

Scrolling Ticker Preferences

To set up your Scrolling Ticker preferences, go to Preferences and Select Manage Scrolling Ticker List.

The screenshot shows the website's navigation menu with 'Preferences' highlighted. Below the menu, there are sections for 'Your Preference Options' including 'Page Content Management' and 'Security Information'. In the 'Page Content Management' section, the link 'Manage Scrolling Ticker List' is highlighted with a red box.

Type in the tickers for each security or index that you would like to appear in your scrolling ticker list. Please note: The NASDAQ and NYSE Composite will always appear in your scrolling ticker. Other available indexes and their tickers are:

- | | | | |
|--------------------------|-----------|----------------------|-----------|
| Dow Jones Industrial | (I:DJI) | Dow Jones Utilities | (I:DJU) |
| Dow Jones Transportation | (I:DJT) | Dow Jones Composite | (I:DJC) |
| S&P 100 Index | (OEX) | S&P 500 Index | (INX) |
| S&P Midcap | (MID.X) | AMEX Composite Index | (XAX.X) |

The screenshot shows the 'Scrolling Ticker List Management' page. It features a table titled 'Current Scrolling Ticker List' with two columns. The first column contains 'CBSH' and 'I:DJ' (partially visible). Below the table is a 'Save' button. A 'Return' button is also visible in the top right corner of the page.

Once you have all of your tickers added to the Scrolling Ticker List boxes, select Save. A confirmation message will appear telling you that your Scrolling Ticker List was successfully updated.
