

Let's identify where you stand today. BodeTree's valuation, financials, and comparison tools can help. How much is your business worth? BodeTree's valuation tool provides a powerful approximation of how much your business is worth today, and helps you track your progress month over month. We utilize industry best practice and valuation methodologies, combining the discounted cash flow and market multiple approaches. The valuation takes into account historical performance, your five year forecast, and industry specific multiples. It is the one number that takes into account where your business has been, where it is today, and where you're heading in the future. While this is no substitute for a professional valuation, BodeTree's strategic valuation can provide most businesses with a valuation within 20% of their actual market value. And, because we perform this analysis on an ongoing basis, you'll be able to witness first-hand how your strategic decisions translate into long-term business value.
