2. There is no fee for Mobile Banking or text Alerts. Message and data usage fees may apply; check with your wireless or VoIP provider for more information.
3. Qualifying combined deposits include personal checking, savings, money market, CDs, and IRAs owned by the first person listed on the account. Qualifying balances are determined by using the actual daily balance on the day prior to the checking account statement cycle. Business accounts do not qualify.

Definitions

* Daily balance means the ending ledger balance in the account each day. You must maintain the minimum daily balance every day of the monthly cycle.

** Average daily balance is calculated by adding the ending ledger balance in the account for each day of the monthly cycle and dividing that figure by the number of days in the monthly cycle. You must maintain the minimum average daily balance for the monthly cycle.

*** We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the ending collected balance in the account each day. When your statement cycle ends during a weekend, we will pay interest by projecting the balance from the prior business day. If your balance changes significantly over that weekend, we will make an interest adjustment on the first business day of the next statement cycle.
