

Challenge Accepted®: Mike

We had a well-known customer who had come to the bank who was a teacher at a local school.

She was having financial difficulties that were keeping her up at night.

So we sat down, and started unpacking all the different bills that she was paying each month.

Come to find out, we could save her money, improving her situation. So we found a solution for her that allowed us to take care of the financial piece of the puzzle while she focused on educating her students.

That is "Challenge Accepted®."
