

Archway Building Maintenance Transcript

We probably have about 60 employees, and probably 20 of them use DirectCheck card.

I would say I add two to three new employees for the Commerce Bank DirectCheck card each month.

We were looking for an option to be able to get away from paper checks, but a lot of our employees didn't have checking or savings accounts.

Before the Commerce Bank DirectCheck card, when we had to do paper checks for everybody, there would be checks that were lost in the mail, or employees that misplaced their checks.

Therefore, we would have to issue stop payments, then issue another check.

That was a cost for us and for the employee.

With the Commerce Bank DirectCheck card, we can get our new employees to sign up right away.

They can have a new card within a week, and usually, if not by their first paycheck, but definitely by the second paycheck, they're in the system and ready to go.

It saves them money, by not having to go cash their check someplace else, or to come and get it.

It's convenient for them, which, in turn, makes it a lot more convenient for us.
