

Remote Deposit Checking - Video Transcript

Tired of losing valuable time in your day driving to your bank to deposit checks?

You should know. There's a better way.

By utilizing the Commerce Bank Small Business Remote Deposit tool, you can safely make check deposits right from your office 24/7, giving you faster access to your funds and reducing cash flow delays as you wait for checks to clear.

With Small Business Remote Deposit, simply log in through a secure online portal, navigate to the Deposit page, choose the appropriate account, and scan your checks using a desktop scanner.

Next, click submit deposit, and you're done.

Your deposit has been made.

Do you have multiple checks to deposit?

No problem.

Remote deposit can handle batches of checks and electronically endorse them, removing another time-consuming step from the process.

It also stores check images for up to 18 months and has simple reporting and printing options.

With all of these time-saving capabilities, you're free to get back to focusing on what you really love.

Running your business.

Ready to ditch trips to the bank?

Remote Deposit can help.
