

Order Checks Video Transcript

Thank you for opening a new account with us.

To help you take full advantage of your new account, let's make sure you're prepared with the checks that best meet your personal needs.

There are many times when a check will be the right form of payment. Think about moments like paying rent or other living expenses, school lunches, athletics and fundraisers, pets sitters, lawn care or other services providers, gifts and charitable contributions, paying taxes, or to help establish your direct deposits.

Checks will help you monitor your spending and maintain control over your account so you can choose when the time is right to make your payments.

Your check design is also a consideration. Would you like to create awareness for a favorite cause or personal interest? There are many options to choose from.

And finally, think about how you store your checks. Would you benefit from a checkbook cover? Maybe you'd like mailing labels or other accessories as well.

To ensure you always have checks on hand, provide your email address to your banker, and we'll send you a reorder reminder email.

Ask your banker to help you place your check order today.
