

With toggle you can link up to two checking accounts from any financial institution to your Commerce Bank Credit Card to Pay Now for your day to day purchases.

Simply choose the different types of purchase categories that you wish to Pay Now from your checking account...

...use your Commerce Bank credit card to make your purchases, and toggle will do the rest.

Setting up Pay Now is easy.... After you have signed up for toggle, you can set the Pay Now preferences that best meet your needs...

Use the toggle switch to turn 'ON' a category that you want to Pay Now from your checking account. Then, when you make a purchase in that category with your Commerce Bank credit card, toggle will pay for that purchase using funds from your linked checking account...

For even more flexibility, you can use the Setting and Amount fields to set specific purchase amounts for each category. That way, you only Pay Now if the amount of your purchase is above or below your selected amount.

Set up as many Pay Now preferences as you like and toggle will do the rest.

You can even use the All Categories selection to Pay Now for all of your credit card purchases above or below a specific amount from your linked checking account.

Don't worry, tracking your toggle purchases is easy. All your purchases will appear on your credit card account activity page in Online Banking. Pay Now

purchases are designated with the Pay Now icon. That way, you always know which purchases you have set to Pay Now and which purchases you will need to Pay Later as you normally would.

Turn on toggle today. A new, flexible way to Pay Now.
