

Digital Banking Moving Money Video Transcript

Life doesn't sit still and neither does your money.

Getting money from here to there doesn't have to be hard.

Our digital banking tools are like Uber for your wallet.

Payments are a snap with digital banking.

Whether you need to pay your babysitter or your cell phone bill, it's just a few taps away on the Commerce Bank mobile banking app.

What about that co-worker who picks up the lunch check?

Pay them back the simple way with a person-to-person payment through online banking at commercebank.com.

They get an email confirmation of payment, and you get to skip a trip to the ATM.

Win-win.

While you're at it,

Don't forget to send some extra cash to the college student in your life.

You can transfer to and from your accounts at other financial institutions, too.

After all, it's all your money.

Our money movement tools make it easy to send money wherever you need it to go.

Anytime. Anywhere.

Even when you wish it would just stay put for a while.
